INTERNSHIP

EDevelopers World, Remote—*Schoolinks Applications*

January 2022 - April 2022

Achievements/Tasks:

- I worked on a project called Schoolinks applications. which primarily used a Javascript framework called React JS. I expanded the application's functionality.
- included new features such as vertical navigation and It has the ability to create numerous graphs.
- as well as the elimination of small faults, all of which improved the app's user experience.

PROJECTS

PlayWithText — (04/2022-05/2022)

Github Link: https://github.com/patelshravan/play-with-text

- PlayWithText gives you a way to analyze your text quickly and efficiently. Be it word count, character count, minutes to read, split into sentences or readability grade.

Taxi-Cab — (08/2021 - 04/2022)

Github Link: https://github.com/patelshravan/taxi-cab

- Online Taxi-Cab was created to handle all cab hiring tasks online. Customers can easily reserve a car online. (April 2021–July 2021).

Mobile Weather App — (04/2021 - 07/2021)

Github Link: https://github.com/patelshravan/react-native-weather-mobile-app
